ABSTRACT:

“Education is the most powerful weapon which you can use to change the World”

- Nelson Mandela

Education is the most important factor for the development of human civilization. Just as a face is the mirror to the heart of a person, level of education reflects the status of a nation. Education completely changes our mind and personality and helps us to attain the positive attitudes. Education is considered as a tool of Inclusive Growth in India. It has direct impact on the growth of the Indian economy. In this paper attempt is made to understand the role of Education in Indian Economy. The study focus on the Initiatives taken by the Government of India to provide education to all the people of the nation. If people are educated, they can understand their duties and rights. In order to uplift human society, each should be capable to understand others. Education is truly one of the most powerful instruments for reducing poverty and inequality and it sets the foundation for sustained economic growth.
