

GREEN ACCOUNTING: A CONCEPTUAL FRAMEWORK IN INDIA

ANU

ASSISTANT PROFESSOR IN MANAGEMENT MAHARAJAAGRASEN INSTITUTE OF MANAGEMENT STUDIES

ABSTRACT

Many countries have accepted the importance of environmental accounting and have implemented the environmental accounting in their country. Still no regulations on environmental reporting have been made. In this paper, concept and framework of environmental accounting is explored. This paper also highlighted the importance and implementation of environmental accounting in India and other countries. Some challenges and issues are also discussed which are still not solved and making environmental accounting implementation difficult. A case study for implementation of environmental accounting is also mentioned

KEYWORD: Environmental accounting, implementation, reporting, disclosure, environmental cost.
