### ABSTRACT

Now a day industries will decide our Indian Economy. In India there are various industries are functioning. Therefore, Tamil Nadu also are consist of various industries. From that the researcher decided to take Supreme Fireworks Industries in Sivakasi.

A Leader is a guide to create the path for employee to achieve the organization goal. In Industries the leadership quality is the major role for development of organization, because the leadership quality determines the employee attitude and behavior towards work and the employee is the key factor for the organization.

In this paper, the researcher analysis the leadership qualities among the employees and measure the leadership quality swim with tide of employee overall satisfaction in the organization. The required primary data of this study has been collected from 50 employees in fireworks industry, sivakasi. Hence, the Simple Random technique used for this study. The researcher will be using the statistical tools like percentage, One way ANOVA, Paired Sample Test. Finally the researcher provides the suitable suggestions for improvement of the leadership quality and employees job satisfaction in fireworks industry.

This paper conclude, thus the leadership quality is the important factor for success of the organization. Therefore the good leadership qualities leads to high satisfaction for employee with the job and poor leadership qualities leads to make barriers with development of the organization.

**KEYWORDS:** Economy, satisfaction, industry, leadership quality.
