ABSTRACT

The focus of this research is to study the economic empowerment of women by the way of microfinance in United Arab Emirates. The study will investigate women entrepreneurship ecosystem in United Arab Emirates, across all emirates. One of the major objective of the paper will be to study that how the microfinance institutions play a crucial role in educating aspiring women entrepreneurs to achieve entrepreneurial ambition. Microfinance institutions not only provide financial support but also motivate, encourage and mentor aspiring women entrepreneurs to enhance enrich and achieve entrepreneurial goals so they can contribute to the society and the economy.

KEYWORDS: Entrepreneurship, Microfinance, United Arab Emirates, Women Entrepreneurship.
