### **ABSTRACT**

Drug addiction is not just physically impounding but has disastrous social and mental effects which have so transpired in Punjab. Where this menace is causing harm to the youth of the state Punjab on one aspect, it has also impinged as detriment on the image of the state. To counter and control it, it is necessary not just to act on aetiology but to reduce the after effects, in form of rehabilitation. This paper attempts to appraise the efforts put forward for the same in Punjab by both government and non government agencies. Also are explored areas requiring improvement and elucidation for same are stated. Secondary literature and data is utilised to attain the objective of the paper.
