ABSTRACT:

In this study, empirical findings on the measurement of volatility in the flows of Indian foreign investments (portfolios) during the different time frame (pre- during- post) of the major two financial crises: US Meltdown and European Sovereign Debt Crisis under the study have been presented. The present study is completely devoted to accomplish an important objective of the study that is to scrutinize the various macroeconomic determinants affecting the drive of the total Indian Foreign Investments inflows during, pre and post of the two major global financial crises. For such analyzes the monthly flows of various macro- economic determinants have been taken into account.

KEY WORDS: foreign investments, macroeconomic determinants, volatility, US Meltdown and European Sovereign Debt crisis.
